Dear sirs,

Thank you for this information. Please find attached a photo of our analyser and the sensor, so we can get your feedback on the model we need.

Many thanks in advance.

Mr. M. ORMAYER

Dear Mr. M Ormayer

Thank you for your email.

The sensor normally used in the O2EII is the R-33DE (analox 9100-9220-9B), but there are some early models (18+ years old) that use the R-22DEM, I am not familiar with the analox part number, as they have stopped supplying them. Please can you take a look at the attached pictures and confirm which model you require?

Best regards
Ryan
