Hi Ryan

Hope you are well and had a good holiday (apologies if it was a work trip).

Thank you for the delivery of 40x Gas Analysers and 1x Sarco Sensor Cartridge.

- The new Gas Analysers and associated labels are all great. Thank you for removing Sarco Stopper from the Part No. & Serial No. labels, this will allow us to use these Analysers for all customers, even those who request no branding.
- The new Sarco Stopper R-17 sensor, 0110382, and Sarco Label are good. Thank you.
- Unfortunately, no flow diverters were included. Can you please send them with the next order (I'll try and remember too). We have some for immediate use, so not affecting us at the moment.

Can you please also create a new Part Number for a non-branded R-17 sensor cartridge. To be as Vandagraph 0110217 or Sarco 0110382, but with no Company details.

Thanks for all your help with these. Hopefully, regular customer orders will begin soon.

Thanks & regards

Graham
