Hi Sarah,

I hope this email finds you well.

As part of our ongoing efforts to enhance our products and services, we're currently trialling a new BIS sensor that is fully compatible with the models you currently purchase from us. Our intention is to promote both product lines, while offering a more competitive option without compromising on quality.

We believe that gathering feedback from our valued clients is essential before introducing an alternative product to the market. With that in mind, would you be open to testing a few samples and sharing your thoughts?

Please do not hesitate to let me know if you have any questions. I look forward to hearing from you.

Kind regards

Catrin Hollings
