Hi Katie

I have a special request!

Our customer at Spire Washington have requested a loan of a LipoCollector 3 – this has to be the older Lipo 3 rather than the newer 3+. Both of the items have the part number 670000, which makes things even more confusing.

The key difference is that the new Lipo 3+ has an outlet at the bottom of the plastic collection pot - the old Lipo 3 does not have this.

Could you please let me know if we have one and, if so please deliver to Louise Childs at Spire Washington. There will be no charge for this as it is a one-off loan. I will collect it on the day following the case and use it for demo purposes.

Kind regards

Tom

All of ours are Lipo collector 3+ I think

I guess this is the outlet at the bottom

Kind regards

Jonathan Connor

Tom,

I'm afraid all of thh units we have in stock have the outlet at the bottom

Please do not hesitate to contact me if I can be of assistance.

Kind regards

Ok

In that case can we please send one of those. I'll contact the staff to advise.

Thanks

Tom
