Good evening,

I have attached Quote QAN155775,

It only has a quote for 5 Max-O2 ME units which come with a sensor but I haven't added spare sensors as I am unaware of the pricing for them as we don't have them on our price list, I will speak to my colleague on monday when he is back from Annual leave.

From my understanding R230P01-001 is the same as 0111263, however again, I'll confirm this with Ryan on monday.

Kind regards
Michael

Hi Ryan,

Please can you ensure the analysers have visual and audio alarms

Good morning, Ryan,

Please could you offer a Quote on either of the below items and current lead times for each?

5 x 0111263 & Spare Cells
5 x R230P01-001 & Spare Cells

If these are not in stock or have an extremely long lead time could you Please advise what you can supply off the shelf, application is to monitor in line divers gas x3 at the DC panel or chamber.

Best regards,

Nick Gilpin
