Hi Stuart,

We do have an alternative to the KE-25 available, in the Max-250(B) but the fitting at the sensing end is slightly different: it has a M16 x 1mm thread instead of the hex nut moulding but is electronically the same specification. It is also significantly cheaper and usually always in stock.

p/n 0110432 - MAX-250(B) Oxygen Sensor

1-off: £67.70+VAT

2-off: £66.10+VAT

3-off: £64.30+VAT

11+: £60.90+VAT

Lead-time 1-2 days.

Hopefully that sensor will be suitable, we have them in stock (the website stock is incorrect currently and won't let you order through it) and carriage is FOC.

It should be noted that this sensor is supplied with unterminated wires, if you need connectors, can you send me some pictures of the connector on your current sensor and I will see if we have them?

Best regards,

Steve Hardaker

Sales,

I'm after the KE-25 oxygen sensor but it says discontinued. Do you have a replacement for this product?

I need 8no. please.
