

About us

Trionara

Trionara Technologies AB founded in 2010 in Gothenburg- Sweden, with its main business in the medical products specifically on various types of patient care monitors with its own brand under model name of "ViTUS" series. Our long term plan is to supply more valuable medical products having our own brand to support our precious distributors and customers worldwide with high quality products "Made in Sweden".

Trionara Technologies AB has achieved "CE mark" to its own patient monitoring system in March 2013 and we are proud to be the first Swedish manufacturer of full parameter patient care monitors.

According to our *ISO 9001* and *ISO 13485* certifications, we have a strong plan to work internationally in the available markets with respect for the principles to provide high quality products and focus on customer needs and satisfaction.

In addition to our own brand products, we are also distributing highly reliable products from well-known suppliers within agreed territories.

The management team has an experience of more than 20 years in the relevant fields, strong connections and business partners worldwide. **Trionara Technologies AB** is represented by Board of Directors:

- **Anders Nordkvist MD, PhD**
- **Abdolreza Yaghoobzade Tari**
- **Abbas Bafkar**
