Hi Kate

According to the table I analyzed, the Drager Isolette 8000 Plus incubator uses R22VI, which is an alternative to the original.

Please give me a quote for 6 R22VI sensors (3 PACK) and 2 Teledyne R-17 MED sensors for environmental oximetry use, MX-300 Teledyne.

Also, in the email, please provide the price of the R-49V sensor - 0110049.

Do you know when the OOM202 sensor will arrive?

Regards

Good morning Alan,

Thank you for your email.

The OOM202 sensors (not in stock, 0110581) in the pictures are the same as the R-49V - 0110049 (same sensor, different label). I'm not sure about the the Draeger Isolette 8000 plus, but the **Draeger Isolette 8000 uses the R-22VI**. Part number 0110072 for a pack of two.

Please let me know what you require the quotation to show.

Many thanks.

Kind regards

Kate Griffiths

Hi kate

I need you send me a quote for shipping for:

- 2 R17Med sensors for the teledynes mx-300- ax-300
- 6 oxygen sensor for the isolette 8000 plus incubator, they are using the Honeywell OOM202 cell, I attached photos and asked if it works for you to avoid problems.

Best regards
