Hi Kate

So the R22 VI sensor works for the Drager Isollette 8000 Plus incubator? Please confirm.

I need 6 sensors for the incubator, and code 0110072 comes in a pack of 2 sensors, so I need a pack of 3. Please correct the quote because you listed a pack of 6, which is actually 12 sensors.

The R17 sensor for the Teledyne oximeter is fine.

Best regard

Alan Retamal L

**Asunto:** Re: oxygen cell

Thank you Alan,

Please see attached quotation as requested.

The price of part number 0110049 - R-49V is \$37.75 each EXW.

Kind regards

Kate Griffiths

Hi Kate

According to the table I analyzed, the Dragger Isolette 8000 Plus incubator uses R22VI, which is an alternative to the original.

Please give me a quote for 6 R22VI sensors (3 PACK) and 2 Teledyne R-17 MED sensors for environmental oximetry use, MX-300 Teledyne.

Also, in the email, please provide the price of the R-49V sensor - 0110049.

Do you know when the OOM202 sensor will arrive?
