Of course Ian, leave it with me and I'll get back to you.

Regards

Steve

Hi Steve,
Excellent. Is it possible to get a sample of one sent to me? We would want to make sure it fits/works before ordering.
Best regards
Ian

Dear Ian

I can confirm that the 6018771 connector is as follows, so should be suitable for use with your Biolight monitors:

If you can please let me know the batch quantities required, we will be pleased to provide a quotation.

In the meantime, the EXW Viamed pricing for ref. 6018771 is: **£24.00 each + VAT**

Kind regards

Steve

Hi Ian,

I am leaving Viamed today for a new position, so will hand this over to my colleague, Steve Nixon, who I have cc'd in.

I have left an open sales project for this enquiry, which details your requirements, specifically that you are looking for Orantech Reusable Temperature Adapter Cable p/n 6018771, and the connector needs to be the correct connector to fit the current Biolight P range of patient monitors. For Steve's benefit, this is documented on issue 364359.

I have highlighted that you need the price and have asked if we can get a sample that you can purchase.

I'm sure that Steve will be able to sort this out for you.

Best regards,

Steve Hardaker

Hi Ian,

Sorry for not getting back to you sooner. The person that can resolve this was on leave for 2 weeks, he has just returned to work so has been asked to look into this for you.

Do you have a rough estimate of how many you might require if the 1 that you try initially works out? We don't currently have them in stock, but this info might help to inform how many we order for the initial stock order.

I look forward to hearing from you.

Best regards,

Hi,

We sell the Biolight patient monitors in the UK and are regularly asked about the temperature probes.

Most customer use the YSI single use type and I see you do the reusable adaptor for these for the BLT monitors (your part number 6018771).

I can't quite make out on your websites picture of this item the yellow end. Do you have another image of this end or indeed a sample we can try/purchase?

For reference the yellow end needs to look like the attached yellow connector ON THE LEFT HANDSIDE of the attached picture to fit the current Biolight P range of patient monitors (their latest range). The one on the right is for their discontinued range so no longer supported.

Best regards

Ian
