hi Ryan

Did you see my email? I am not asking for the price to hustle just because I do not remember the volume discounts. The customer placed the order for the set with VN202, so we definitely need to get some things in :)

Have a great evening

hello Ryan

Thank you, extending my mutual wishes for you. :)

This is the price for 3 sets correct, ie best price possible?
Do you have the sensors for the Analox handheld unit on stock as well, just one,
Plus the best price for 3 TEK0x as well..
