Dear Kate

Can you quote me (two) Mysign pulse oximeters with a charger and rechargeable battery? I believe the code is 0111277. According to what I saw, it comes with a software CD to transfer the measurements to a PC. Is it in Spanish?

The OOOM111 sensor is included in option codes 0111276 and 0111277, but please give me a price.

Best regard

Alan Retamal
