Hello
Send me invoice with 25 pcs of R-23v
With last price

The shelf life for the the oxygen sensor R-23V (0110023) is 24 months, these sensors are sealed into gas barrier bags to prolong the shelf life of them. Do not open the bag until the time when the sensor is being put into service.

We do recommend they are put into service with the minimum storage time and certainly before the warranty expires which is 15 months from date of invoice.

The warranty is 15 months from date of invoice, whether it has been connected to the device or not.

I am unable to say what date any new ones that we order in would be.

Kind regards

Kate Griffiths

Good afternoon,

We have stock of part number 0110023 - R-23V. The manufacture date is April 2025. The price is £34 each EXW.

Unfortunately we are unable to supply the Draeger cable.

Kind regards

Kate Griffiths
