Dear Ryan, Dear Michael  
Thanks again for your support.

We would like to put a new order for following items.

5 x TEK-OX Auto

5 x R-33DE

And is it possible you could offer us one more PCB assy as back up?

This is the first time we have a PCB issue on your items last week.

But we actually have plenty similar issues from the Analox units we dealing before.

I think the tropical enviroment here plays a part that electical component wear out faster.

Best regards

Greg Chang
