Dear Adrian

The sensor we discussed is the 0110081 Teledyne UFO 130-2 ultra fast oxygen sensor.

The price is £144.80 per sensor + VAT. The sensors can be shipped UPS Next Day delivery at £12.00

I hope that the above meets with your approval. Please let me know if you require any further information.

Kind regards

Steve

Dear Steve,

Good to meet you at the EBME meeting.

Can I get a quote for 1-5 O2 cells the one I identified without the board as a spare as the analyser has the board in already.

regards
