3rd November 2016

Dear Steve,

Re: SBRI Healthcare – Child Health - Safe-care & Remote Monitoring

I am delighted to confirm on behalf of the management board of SBRI Healthcare that Viamed Limited have been awarded funding up to, and not more than, a total of £93,318.15 (inclusive of any VAT) for your project, entitled: Portable wearable paediatric oxygen monitoring device

This offer is subject to contract and is also conditional on successful completion of a period of due diligence. The due diligence will take the form of financial and background intellectual property checks, if we require any additional information, to that already received, we will get in touch. We expect to be in a position to exchange contracts by 23rd November 2016.

NHS England will lead on the communications arrangements to share the SBRI funding decisions. I would therefore be grateful if you could hold back from communicating this more widely at this stage whilst our discussions progress and until a contract is in place.

If you have any further queries at this stage please do not hesitate to contact us. We look forward to working with you on the project.

Yours sincerely,

Joop Tanis
Programme Manager, SBRI Healthcare
Health Enterprise East
