

**Packaging Trial & Validation**

The following should be checked:

- The unit being sent is to the specification as detailed on the official order.
- The Instructions for Use, and Cleaning Instructions are included

Packaging:

- The units are hand delivered by “Tanda” wrapped in clear cellophane.
- The units are then packed in cardboard boxes by Viamed.
- The units are wrapped in bubble pack (if large and flimsy)
- The units are placed in the box with airbags surrounding – applied with the use of a specific airbag machine.

Postage:

- For single and multiple orders – despatch is via an appropriate courier with adequate insurance cover.
- Alternative delivery is via a Hospital visit by a Sales Representative.
