Good afternoon Kate,

Thank you for the instructions sheet of the above Flow sensor.

Yes. Please send proforma invoice for the 5 Pcs (01 Box) first.

Best regards,

Good afternoon Sudath,

The 4310007 SpiroTrue A flow sensors are identical to the 4310008 SpiroTrue A (PC) autoclavable flow sensors in terms of measuring function and accuracy. The only difference is that the 4310008 could be autoclaved and sterilized. **The 4310007 SpiroTrue A flow sensors can be reprocessed by cleaning and disinfecting.** Please see the instructions attached for use for specific details.

Is the proforma for five in total? (1 x 4310007).

Kind regards

Kate Griffiths

Good morning Sudath,

Unfortunately, part number 4310008 has been discontinued, due to economical reasons. It is no longer viable to process through the Medical Devices Regulation (EU) 2017/745.

The single use version flow sensor **4310007** is still available as alternative - SpiroTrue A (Anemometric) - **single use flow sensor**, box of 5.

Shall I issue a proforma invoice for 6 x 4310007 (total 30)?

I await your reply.

Kind regards

Kate Griffiths
