Good Morning Ryan,

Trust you are well.?

Unfortunately I have still not got the PO for the MAX 550E sensors, it's a government order so the paper work is extreme and nothing happens in a hurry!

However my customer for the R17-VAN needs them quite urgently, can I kindly order these 4 units now and I will order the others as the order arrives.

Kindly forward me a PI for the 4 x R17-VAN as per below copy as well as banking details if its changed, if they are still the same it's on our system and I can make payment straight away, if its changed I will need to make a new entry which may take a few days.

I will arrange DHL to collect as usual, once everything is done and its ready to go.

Thank you kindly for the help Ryan, you have been super patient, much appreciated.

Kind Regards

Chris

Hi Ryan,

Many thanks,, it's possible it's one of your fittings, it's on a vessel here in the harbour.

I will just get a PO and we can proceed.

Kind Regards

Chris

Hi Chris

Yes, the R-17VAN would be a suitable replacement.

In your picture it looks like it is connected to one of our cables, so possibly one of our devices, which would use the R-17VAN.

The trade price for the R-17VAN is GBP £38 each EXW

Best regards

Ryan

Ryan, we are still awaiting approval on the last sensors, it's a slow process unfortunately, but they asked if can also quote on the Equivalent of the **AST-17D** in the Vandagraph range. I may be wrong but I believe we purchased them previously as your product **R17-VAN** ??

I attached a picture just to confirm.

Kind Regards

Chris

Hi Chris

We have stock available, we would endeavour to dispatch orders within 1-2 days of receipt.

This is the OEM part (Maxtec).

Best regards

Hi Ryan,

I have chatted to the customer and they are keen to get 5 units of the Max tec 550, could you kindly just confirm lead time if any and on 5 units, and if this is the OEM Maxtec 550 or the Vandagraph equivalent.?

Either way they don't mind, they just need the info for the purchasing documents.

Many thanks,

Kind Regards

Chris

Hi Chris

Please find the specifications attached for the MAX-550E.

Unfortunately, we do not supply a suitable replacement for the sensors below:

Part 1. Nuvair Pro O2 Analyser - Nuvair part number; 9505

Part 2. Analox Aspida O2 Sensor – Analox part number; 9100-1060

I am sorry we could not be of more help on this occasion.

Kind regards

Ryan

Good Morning Ryan,

No problem, thanks for getting back to me.

Very happy you can assist, its unfortunately a Public holiday here today so the customer is closed, but I will send the quotation in the morning and hopefully we can get the PO soonest.

As an aside Ryan, do you maybe have some sort of schematic or flyer on this O2 sensor with a code, I am just trying to avoid delays in case they do ask then I have it available.?

Michael did forward me some info on the below but I seem to have lost it, could you perhaps assist with a cross over in the below;

Part 1. Nuvair Pro O2 Analyser - Nuvair part number; 9505

Part 2. Analox Aspida O2 Sensor – Analox part number; 9100-1060

Again, many thanks,

Kind Regards

Chris

Dear Chris

Thank you for your email and I am sorry for the delay in getting back to you, as your email was initially in our spam folder.

We can supply the MAX-550E, the trade price would be GBP £100 each EXW.

Kind regards

Ryan

Good Morning Michael,

We are needing some further O2 sensors as previously, we are also looking for the alternative to this attached O2 sensor if you have a replacement could you assist us please.

Maxtec MAX-550E Oxygen sensor.

The other sensors we know so we can just include them.

Looking forward to hearing from you.

Kind Regards

Chris

Importance: High

Good Morning Michael,

Trust you are well.?

We would like to order some more O2 Sensors, some I can pick up from your trade price list but these two I am a bit wary of guessing.

Could you kindly advise if you have the direct cross over, then I can complete the order and forward through.

Part 1. Nuvair Pro O2 Analyser - Nuvair part number; 9505

Part 2. Analox Aspida O2 Sensor – Analox part number; 9100-1060

These are all surface use analysers.

Many thanks Michael,

Kind Regards

Chris

Subject: International payment sent

Hi there

Payment has been dispatched.

The following payment has been dispatched:

Amount: 210.00GBP

Beneficiary name: Vandagraph Ltd

Reference number: 230213-CWCLRN263

Your payment will be made to the following account:

Bank Name: Barclays Bank UK PLC

Beneficiary Name: Vandagraph Ltd

Beneficiary Account No: 90903124

sort_code 207842

Payment Reference: MAN141841

Your payment was sent by Local Transfer. It normally takes 2-5 working day(s) for a GBP payment to reach the beneficiary's bank account.

Exceptions can occur from time to time. All international payments involve routing through banks and the delivery time depends upon how efficient those banks are.

Warm regards,
The **Shyft** team
