To: Kate Griffiths <kate.griffiths@viamed.co.uk>

Dear Kate,

I hope you are doing fine.

Can I have you best commercial offer for the following sensors:

R-30V Qty: 10

Regards

From: Kate Griffiths <kate.griffiths@viamed.co.uk>**Sent:** Wednesday, May 14, 2025 1:48 PM**To:** operations@azmedicslebanon.com**Subject:** Re: Order 5-2025

Good morning,

Thank you for your reply.

The R-22MED (Teledyne branded) and the R-22MEDV (Viamed branded) have **slightly different outputs**, but the same application. If you would like to let me know what device you need to use them in, I can check our cross reference?

The outputs are as follows:

R-22MEDV (0110021) 9-13 mv (this sensor is currently in stock)

R-22MED (0110022) 7-13mv

The R-22MEDV is available in singles or matched pairs. The singles are part number 0110021. The matched pairs are part number 0110072 (known as R-22VI).

Please let me know if you require any changes to the quotation and I can update it and include carriage to Lebanon.

Kind regards

Kate Griffiths
