With over 1000 SKUs in our stocking range and assisting drilling rigs and large subsea installation contractors with thousands of equipment, spares and consumables procurement annually, that help reduce downtime, we are India's largest specialty oilfield supply company with over \$3 million in annual revenues and decades of procurement experience. We like to add value to the supply chain with the right pricing and getting parts to customers when they need them by partnering with supplier companies that share the same philosophy.

Dear Shruti

Thank you very much for your email.

Please find our distributor pricing below:

0110950 Nitrogen sensor N-33 = USD \$44.45 each EXW

This is a non-stock item and the typical lead time would be 8-12 weeks. However we currently have an order placed for another client and there will be a spare sensor arriving in a batch which is scheduled for October.

Please let me know if you have any questions.

Kind regards

Ryan
