Dear Sir/Madam,

I would like to ask your for the quotation for following sensor with possible discount and delivery time.

I also need to know the **production date**.

**R-21A Sensor O2 automotive, 3pin Molex, 7-13 mV – 50 pcs**

Our customer always takes original sensors (they didnt want/accept alternative R22AVG).

Many thanks

Best regards

Katerina

Thank you for your reply Katerina,

The production date of the sensors we currently have in stock is October 2024. We advise customers to put the sensors into use within the 12 month warranty period.

Kind regards

Kate Griffiths
