Hi Sofi and Kate

Can you send me a quote for 6 oxygen sensors compatible with the Drager Fabius GS anesthesia machine? I believe the reference is R-23V. Please confirm if I'm correct.

Best regard

Good morning,

Thank you for your email. The attached Proforma is still valid for 2 more days. We do have the R-23V available in stock for immediate dispatch (from receipt of payment).

I can confirm our cross reference system does show the R-23V as being compatible with the Fabius GS.

If you require any further information, please do not hesitate to contact me.

Kind regards

Sophie Lines

Viamed is now enacting hybrid working to allow sales and admin staff to work remotely and in the office. Telephone calls to the main office will be answered, but please continue to use email where possible.

Dear Sophie

Please update it, the R-23 V cell is used for Fabius GS anesthesia machine?

Are they in stock for shipping?

Good morning,

I am just following up on our emails below. Please can you let me know if you are still interested in purchasing the R-23V Oxygen Sensors? The Proforma I emailed last month is still valid until 14th September, after which time it will expire. If you still wish to proceed after the 14th, please let me know and I can provide you with an updated Proforma Invoice.

If you have chosen not to proceed, please let me know and I will remove this from our system.

Kind regards

Sophie Lines

Dear Alan,

Thank you for your email. I can confirm our cross reference system does show the R-23V Oxygen sensor to be compatible with Fabius GS:

Please find attached a Proforma Invoice for 25x units including delivery costs to Chile. I would be grateful if you could please let me know if I have all your details correct? If any changes are required, please let me know and I will make the necessary amendments.

The R-23V is available in stock and could be dispatched within 1-3 working days from receipt of payment.

If you have any questions, please do not hesitate to contact me.

Kind regards

Sophie Lines

Hi Kathy

I need to see an oxygen cell for MAQ. Anesthesia Drager, FABIUS GS model. According to the website, the model is VIAMED 23V. See if it's correct and give me a quote for 25 units.
