1 Introduction

1.1 Objective

This document summarizes the labels released for the Temperature sensors. This summary was generated for the technical documentation to simplify review of all model labels during verification processes according to the applicable standards and other requirements.

It may also be used as evidence of current valid labels for registration purposes in other countries.

1.2 Scope

All labels of the reusable bluepoint medical branded sensors are listed in this summary. Included are the labels on the product (flag label) and the outer box label, which is the primary packing level of the product.

1.3 Reference

ID	Document ID	Name	Rev.
[1]	FDB-02-13-0001	TEMP 1010132009	3
