No problem.

I will also include some examples of the new connector cap. Also, some examples of 'protection caps' as requested by Pieter. If ever used, the black caps will need holes for the wires, you might want add another hole to ensure pressure equalization.

Hi Steve

200 sensors is ok for now.

UPS Standard is fine.

Thanks for your help

Yes Bram, they are October sensors and can be shipped as part shipment of the 'November' shipment.

Will 200 cover what you need?

Which UPS service, the usual **Standard** or **Express Saver**?

Hi Steve

Thanks for the prompt reply.

So these 200 sensors are still dated in October?

Can you ship these as an advance from the November shipment?

Thanks in advance

Hi Bram

Do you want to supply an extra covering order? Please advise how many you require? Is 200 enough?

We can try and ship today.

Hi Steve

We're critically low on stock of oxygen sensors.

Would it be possible to ship the emergency stock?

Thanks in advance

Bram
