After telephone discussion with Jan, please edit the existing orders to:

CST159465 edit quantity to 400. Set amended due date to 10th December**CST159466 edit quantity to 400. Set amended due date to 9th January**

Subject: Re: Default UPS service for shipments?

To: <jp@jj-ccr.com>

Hi Jan

If you wish we can delay the production and shipments:

You originally had:

800 for November. I have reduced this to 400. Since you have 650 sensors still in stock. Do you want delaying further to say December?

800 for December. I have reduced this to 400. Or do you want delaying further to say January?

I tried to phone to discuss.

Steve

Hi Steve.

Sorry for late replay something strange is going on in the diving world we have every month until now send out all 800 sensors, however oktober batch we have only send out 150 sensors until now, that mean we have 650 sensors left from oktober batch and November batch off 800 is just about to be ready I belive, pleas for December batch can we puss this out to January instead off having it in December,

Kind regards

Jan Petersen

Hi Jan

Do you have any idea of your initial 2026 oxygen sensor requirements, especially January.
The schedule is getting tighter.

Do you want me to at least start processing say 200 to keep you going?

Regards

Steve

Okay this is super

It was only that you mentioned that it could maybe be a problem or a delay in for filling
the 800 for both November and December but all is clear whit this.

I will figure out the January requirements.

Kind regards

Jan Petersen

Hi Jan

You ordered the following:

9th October **800 sensors for November.** In production, we are trying to do this in time.

9th October **800 sensors for December.** These have been prepared and production started.

Steve

Hi Steve.

Super

For January I don't know at the moment you mentioned that November / December could be only 600 is that corect iff so it is ok whit me,

Kind regards

No problem Jan, prior to shipping orders we will try and confirm with you.

Do you know what your sensor requirements for January... will be?

Hi Steve.

At the moment things are little more easy going so pleas use the Express Saver.

Thnaks.

Kind regards

skrev Steve Nixon <steve.nixon@vandagraphst.com>:

Hi Jan

For shipments to JJ-CCR there are three
UPS shipment service options to JJ-
CCR:

PPUPS6 = **UPS Standard**

PPUPS7= **UPS Express Saver**

PPUPS8 = **UPS Express**

At the moment we ship via **UPS
Express Saver** as the default.
However, many times you want to
change it to **UPS Express**.

For 2026 do you want to keep the
default as **Express Saver** or
Express?

Regards
