Hi Steve,

Thanks for reaching out

Please see attached, for March

Let me know if you can work with that

Subject: [EXT] Future oxygen sensor requirements?

Hi Pieter

The current back orders are as follows:

600 for December

500 for January

600 for February

I know it seems very early, but have you had any thoughts on your actual or minimum order quantities for March?

At the moment the demand is unusually high (not sure why) and this is having an effect of increasing production lead times.

Regards
