Hello, I have to do an SRS for Serial No LE90799101 and LC77899195, in warranty. These sensors (0110432 MAX-250(B)) were sold to Escatec Mechatronics Ltd. a/c 00013052. But the email (with a vendor claim form, attached) is from Sartorius. Shall I use Sartorius for the SRS please? Thank you
