Subject: RE: Question

To: ryan.swaine@vandagraph.co.uk <ryan.swaine@vandagraph.co.uk>Cc: Jan Vermeire <jan@thebigblue.be>

Thank you Ryan,

I will make the offer to our client about the R-22Van Sensors.

What we would need for the shop is the following:

R-17 VAN * 5

R-33DE * 10

Tek ox analyser * 5 (Is there a difference between the models in yellow and black boxes? Usually we get them in a yellow box).

R22-AT * 1

Replacement Oxygen Sensor Cable for the VN202

Kind Greetings,

Eli

Onderwerp: Re: Question

Thank you Eli

Our R-22VAN would be a suitable replacement for the Divesoft analyser.

Best regards

Ryan

Hi Ryan,

I am preparing another order with you for Analysers and Sensors.

I'm getting an inquiry also for Sensors for the Divesoft Helium analyser, the model is R22S . Do you something that fits ?

Kind Greetings,

Eli

Onderwerp: Re: Question

Hi Eli

Thank you for your email.

If the sensor is to be used with an analyser, then the R-17VAN will be suitable.

The R-17A is typically used in the Automotive industry for use in car emissions testing. If it is to be used for that purpose, then please let me know, as you would be better with an automotive sensor.

Best regards

Ryan

Hi Ryan,

We were getting an inquiry about the oxygen Sensor R-17A Sensor. We don't have this one.

Is the R17-Van Compatible? Looks like the same?

Kind Greetings,

Eli
