Good morning Ashok,

As you are aware from previous emails, there is a lead time for this item which is early February 2026.

I did ask in my email of December 11th if you require a part shipment, but I can see no reply to this. Do you require a part shipment of 10 x 0110081 - UFO 130-2 when they have been quality assessed?

Kind regards

Kate Griffiths

Good morning,

From your email it looks like you require a part shipment. Is this correct please? The new stock of UFO 130-2 sensors is just in quality assessment so we can ship them once that has been completed.

Many thanks.

Good morning,

Just a quick email to ask if proforma MVM159654 is still required.

As you are aware, there is a lead time for this item, but in order to secure stock that is expected, the proforma invoice would need to be paid for.

If we do not receive a payment soon, the lead time could be even longer due to other customers ordering this very popular sensor.

Many thanks.

Good afternoon,

Thank you for your email. Please accept my reply.

I have attached a quotation for the items requested. The current lead time for the UFO 130-2
Amplifier is approximately 3 months. I have used the same addresses and shipment method
(EXW) as per your previous order, but please let me know if you require any changes?

If you would like to proceed with this as an order please let me know and I can amend this to
a Proforma Invoice.

Kind regards
