Dear Pantelis Barouchas

Please accept my reply.

For Greece, you could try the following:

<https://air-compressor.gr/>

Alternatively, you could other companies within the EU:

<https://www.galicia.be/><https://www.scubasupport.nl/us/><https://www.tekplongee.com/en/><https://www.tecnomar.es/>

Please let us know how you get on.

Best regards

Ryan

Dear Michael,

Thank you very much for the information and for making us aware of the potential customs charges.

Before proceeding, could you please let us know if there is an authorized distributor or dive shop within the European Union that you currently supply with the R-17VAN sensor, who could provide it to us?

If so, we would be very interested in being put in contact with them in order to avoid the additional import costs.

We look forward to your reply.

Kind regards,

Pantelis Barouchas

**Θέμα:** Vandagraph VANWEB2823

Good morning,

My name is Michael and I am contacting you regarding your recent order for a R-17VAN from Vandagraph.

We are happy to send the order out to you but first I would like to make you aware that the customs charges for importing a sensor into Greece has previously been the same if not double that the price of the sensor itself.

If you still want to proceed with this order then I'll let our warehouse know and they will dispatch it.

however we could forward you towards a EU dive shop we supply sensors for which would reduce the import costs due to being a part of the EU

if you could please let me know if you would like to proceed or if we should issue a refund to you

Kind regards  
Michael
