Subject: Inquiry on Testing Tool Calibration Services and Shipping Process

To: &lt;info@viamed.co.uk&gt;

Good day,

We would like to inquire if your company provides calibration services for the testing tool Viamed V1000 Foetal Heart Simulator .

In addition, we would appreciate it if you could kindly advise us on the process for sending the testing tool to your facility for calibration, including any requirements, procedures, or documents needed.

Thank you very much, and we look forward to your response.

Best Regards,

**Cristine B. Bañas**

Good morning Cristine,

Thank you for your enquiry.

We do provide a calibration service for the V1000.

If you would like to send us the device, (serial number PR02894A12?) I would issue you with a returns reference number to quote on any paperwork. We would also ask for a certificate of decontamination. (This can just be something stating whether the item **has or has not been fully decontaminated**, that would be acceptable).

The price is \$63.40, plus return carriage. There would be a cost for any parts that may need to be replaced/repaired.

Upon receipt of the device, we would issue a proforma invoice and not proceed until payment is received.

Please let me know if you require a returns reference number.

Many thanks.

Kind regards

Kate Griffiths
