Dear Sophie,

Hope you're well.

With reference to the email below, please note that if the specifications of the **MAX-250(B)** align with the originally requested item, and as it has been recommended by you as the OEM, you may submitting the quotation for the **MAX-250(B)**.

We appreciate your kind cooperation and look forward to receiving your valued response at the earliest convenience.

Best Regards,

Malik Kamal.

Good afternoon,

Thank you for your email, unfortunately KE-24F3 has now been discontinued by the manufacturer.

Please see <https://www.viamed.online/collections/industrial-oxygen-sensors-1> for the current range of KE series sensors.

Alternatively, we are able to offer the MAX-250(B) unterminated oxygen sensor - should you wish for us to quote on this please let me know including quantities and I shall arrange a proforma invoice for you. I have attached a copy of the technical sheet for your reference.

Dear Malik,

Thank you for your reply.

Whilst we are not the OEM of the KE-25F3 or the MAX-250(B); based on the technical specifications available to us, the MAX-250(B) has been identified as a suitable alternative. Please find the specification sheet attached.

With that in mind, please find attached your quotation for 1x MAX-250(B) Oxygen Sensor. We have this available in stock and can dispatch within 1-3 days from receipt of payment.

If you would like to proceed with this as an order, please do not hesitate to contact us.

Kind regards,
Sophie
