Dear Ryan

Pls add " 0110501 Oxygen Sensor MOX1 MediceL (3 pin molex)" ,quantity is one number as of now.

Regards
Sathish Kumar

On Thu, Feb 19, 2026 at 10:31 PM Ryan Swaine <ryan.swaine@viamed.co.uk> wrote:

Dear Satish

Please find some information attached in relation to the O2 sensors which may help you make a decision as to which sensors to evaluate. All the sensors I have listed have a similar output (9-13mV in air):

0110501 Oxygen Sensor MOX1 MediceL (3 pin molex)

1 = \$80.56 | 10 = \$56.50 | 50 = \$52.40 | 100 = \$52.40

0110502 Oxygen Sensor MOX2 MediceL (3.5mm mono Jack Socket)

1 = \$80.56 | 10 = \$56.50 | 50 = \$52.40 | 100 = \$52.40

0110018 Oxygen sensor R-17V (3.5mm mono jack socket) = \$32.50

0110019 Oxygen sensor R-17Vi (3.5mm mono jack socket) (slower response, longer life) = \$32.50

0110021 Oxygen sensor R-22MEDV (3 pin molex) = \$37.75

0110020 Oxygen sensor R-22Vi (3 pin molex) (slower response, longer life) = \$37.75

Please let me know if you have any questions.

Dear Ruby,

I hope you are well.

I am writing to follow up on our previous correspondence regarding your enquiry for the City Technology Nitric Oxide (NO) and Nitrogen Dioxide (NO2) gas sensors for your inhaled nitric oxide monitor and delivery system project.

As a reminder, the products discussed were:

- City Technology Nitric Oxide (NO) Gas Sensor, MNO2B MediceL (Part Number: 0110493)

- City Technology Nitrogen Dioxide (NO2) Gas Sensor, MND2 MediceL (Part Number: 0110496)

Please note that the previously issued proforma invoice (MVM158833) for the MNO2B sensors has now expired. Once you are ready to proceed, I will be happy to arrange for this to be reviewed and reissued.

In terms of availability, these continue to be non-stock items with a current lead time of approximately one to two weeks from order confirmation. Pricing remains as previously quoted and can be reconfirmed upon request should your required quantities have changed.

If you require any further information to support your project, please let me know and I will be pleased to assist.

If this enquiry is no longer relevant or required, I would appreciate it if you could advise so that I can update our records accordingly.

I look forward to hearing from you.

<danielmedicalsystemsindia@gmail.com> wrote:

Dear Catrin

Greetings

Our import registration is almost completed; final validation is pending from Indian customs side. It will be completed one or two weeks.

Very important technical request is that we require both Nitric oxide and Nitrogen Dioxide sensors

- **Product:** City Technology Nitric Oxide (NO) Gas Sensor, MNO2B MediceL
- **Part Number:** 0110493
- **Product:** City Technology Nitrogen Dioxide (NO2) Gas sensor, MND2 MediceL
- **Part Number:** 0110496

I attached the above sensor's details pdf file (NO sensor & NO2 sensor), this pdf details not enough to developing new product (our new inhaled nitric oxide monitor and delivery systems) as informed by my R&D team. We request to arrange the complete technical data sheet for the above sensors from the manufacturer (City technology) for further development of our new product.

Kindly arrange the same.

Regards
Ruby Kani

<catrin.hollings@viamed.co.uk> wrote:

Hi Ruby,

I hope you are well. I am getting in touch to check whether there has been any update on your import registration process since our last email exchange.

As a reminder of the details we have discussed:

- **Product:** City Technology Nitric Oxide (NO) Gas Sensor, MNO2B MediceL
- **Part Number:** 0110493
- **Availability:** This is a non-stock item. Current lead time is one to two weeks from order confirmation.
- **Proforma invoice:** Sent on 4 September 2025 for two units including shipping. This proforma is only valid until Sunday (5th October) this week.

Once payment is received, we will place the order immediately and keep you updated through to dispatch.

Is there anything else you need from us to support your registration process, for example, a formal quotation, datasheet, certificate of conformance, or any other documentation?

If your enquiry is no longer relevant or required, please let me know so that I can update our records.

I look forward to hearing from you.
