Good morning,

Thank you for your replies. Once your payment is received in our account, we will proceed with your order. I can confirm the unit does come with a calibration certificate.

As previously mentioned, we are unable to amend the price on the invoice - all shipments must be declared at the correct commercial value in accordance with export regulations and compliance requirements. We appreciate your understanding in this matter.

Please let us know once payment has been arranged, or if you require any further documentation to assist with the process.

Kind regards

I hope you are well.

I am pleased to inform you that the V1000 Foetal Heart Simulator is now available for immediate dispatch.

As you currently have a Proforma Invoice in place for one unit, we are ready to proceed as soon as payment is received or you confirm that you would like us to reserve the item for you.

Please note that stock is limited. If we receive a confirmed order from another customer for the V1000 before we receive your payment or confirmation, the unit will need to be allocated to them.
