Thank you Aqib,

I was going to suggest using our own UPS account but as you have factored that in already lets stay with your quote this time - easier for me when traveling.

We would need to change the delivery address to be the same as the Invoice address please, I don't know if that affects the quote as it's remote location. If so and you can redo the invoice I'll just need a couple of days to get your bank details set up with our Forex service and then can sort out the payment,

All the best, Dave
