I am away from the office next week, but I can be available on the telephone and my colleagues will be monitoring my emails.

Hi Ryan,

It was my pleasure to meet you in Dubai.

Do you have some sensor in stock for a quick validation? 5 of each is ok for us

I am copying to Fernando Martinez, our supply chain manager, to be informed.

We can do a quick validation. Overall, NO and NO2 cells are critical.

We can have a call to discuss.

If helpful, we can also propose alternative oxygen sensor models with comparable specifications at a more economical price point.

Should you wish to discuss technical equivalence in more detail, please do not hesitate to contact me.

I look forward to your thoughts.

Kind regards,
Ryan
