Hi Steve.

It is what it is but no its not Good for sure.

Any chance it will improve in April and also can April be 1000 sensors instad off 800.

Kind regards

Jan Petersen

Hi Jan

At the moment it is not good at all, but we are working on improving the situation. Currently, we can break down into three batches:

100 sensors - mid/late this week

200 sensors - next week

500 sensors - around the 25th March

Regards

Steve

Hi Jan

I tried to return your call.

We are working to clear the backlog and appreciate that you now need the March sensors. How many do you need at the moment?

Regards
