Hi Steve, yes please do send them. UPS Worldwide Expedited always seems to be the best option for us. Our UPS account number is 03E396.

The notes you have suggested are fine.

Hi Charlie

Is it OK to send you 12 samples of your production sensor?

The do you want us to ship using our UPS account - **UPS Courier Delivery - Express Saver** or do you have your account that you wish us to use?

The description of the goods will be: **8010034 Oxygen Sensor - FDS100**

Do you want us to add any other notes for customs such as:

Goods of UK origin
Tariff: 9019209000

NOTE: Sensors are for SCUBA diving equipment

R&D engineering evaluation samples.
Value for customs purposes only USD \$60.00
