Hi Kate,

Please add the MAX-250 sensor with O ring to your order as the ring can be easily removed.

This is oke!

Please add the R-33DE newer version.

Met vriendelijke groet,

Gerard van der Heijden

Onderwerp: Re: MAX-250 - checking which sensor

Hi again Gerard,

Ryan has asked me to add the MAX-250 sensor with O ring to your order as the ring can be easily removed.

Before Ryan puts **R-22DEM** into production, he would like me to ask you to confirm that you want two of these, as they are for the old style Analox O2EII (20+ years old), which are quite rare now and we sell very few of them. The R-33DE is for the newer version.

I look forward to your reply.

Kind regards

Good afternoon Gerard,

Thank you for your order.

Please could I ask about the MAX-250 sensor? We have part number 0110425 - MAX-250 **with O ring** (Maxtec R125P01-00700) or part number 0110428 - MAX-250 **without O ring** (R125P01-002).

I look forward to your reply.

Many thanks.

Kind regards
