

Quality Plan.

Viamed.

- Viamed is certified to ISO 9001 / EN 46001 and these standards are the basis of quality control throughout the company.
- Manufacturing procedures are in place for all goods manufactured by Viamed

These can be found :

1. ISO Quality manual.
 2. ISO Procedures manual.
 3. Paperport on network.
 4. Word processing documents.
 5. Repair procedures can be found as above.
 6. Suppliers are continually monitored for quality of goods and delivery reliability.
- All products not manufactured by Viamed and not from a company with a proven 100% record for quality or specification compliance are either individually tested or batch tested.

Appleyards & Sons.

Headboxes are manufactured by Appleyards & Sons.

Appleyards is a small engineering company who have developed the product and the manufacturing techniques required.

Since 1996, Appleyards & Sons have produced a product of good consistent quality with no user complaints.

There is no possibility in the near future of Appleyards & Sons becoming ISO9000 certified.
