

Kate 9:15 AM

Good morning Steve, Honeywell have ordered 670 x 8030551 Cathode, their date 21st May. Are you happy with that date please?

S

Steve 9:28 AM

Yes, these are the ones that we get tested by JFD. They provide them to us and we get them tested by JFD. Once received, it will take approx. two weeks to test.

Kate 9:35 AM

So you send 8030450 to JFD, they send them back to us, and we send them out as 8030551 to Honeywell - no w/h request needed from me I think....

S

Steve 9:40 AM

That's correct, I will take care of it.
