Hi Lotta

Thank you very much, it was great to meet you and the team. And a special thanks to you and Anna for your hospitality and the city tour. I hope your meeting on Wednesday went well.

With regards to the parts for pole mounting the VM-2160, how would you prefer to do this? I can send them on loan or you can purchase them.

- 0022171 Universal mounting plate with `V` mount = EUR €13 (this part is essential for using any of the mounting brackets)
- 0121181 Viamed V mount pole clamp - small = EUR €30.60
- 0121182 Viamed V mount pole clamp - large = EUR €32.80

I have requested the Swedish IFU for the finger oximeters, I will let you know as soon as I have a reply.

Swedish software, I will raise this with my colleagues. I would guess it is possible, but there is likely to be a cost involved, so I need to find out what that is likely to be.

Kind regards

Ryan

Dear Ryan,

Thank you for visiting us, it was great to meet you. 😊

Just wanted to follow up on a couple of things we talked about.

- We have our biggest event of the year coming up shortly and we spoke of the mounting brackets (universal mounting clamp, pole clamps and the universal mounting plate). Do you think it's possible that we could get these in time for SAMTIT?
- Prices of the finger pulse oxymeters? Are there Swedish manuals? I believe we talked mostly about MD300-C2.
- The software for SMARTsat – is it possible to get it in Swedish?

Kind regards,

Lotta Kronåker Boström
