Good Morning Steve:

The client wants to make sure the sensors work before the commit to purchasing 100 units of the sensor OOM202-1. The problem is that he wants me to put these sensors with other items I am shipping from the US to him.

Please let me know how much will it be for freight to the US for 5 units. I do not know if with your brand they will be stuck at customs so we have to get the ones from Envitec.

Thanks

Liz
