Hi Steve, Ichinen have emailed us, asking if CVM162806 can be shipped early. Stock wise we have x27 until end (ish) of July. Do you need me to reply?

**Steve** 11:45 AM

Yes, we can part ship. We also have 28 retruned sensors (tested OK) to go back to them. They had sent a batch of returns and Tateishi agreed that we can return back to them any sensors that tested OK.

I will mention those when I let Cathy know they want part shipment 😊
