Morning Kate

We would be interested in purchasing 2 of the MaxO2+AE Oxygen Analysers, would it be possible to send me an official quotation please (excluding VAT) including any delivery charge that would apply? As we are a Government Department we would raise an official purchase order for the items with payment following delivery, would that be acceptable with you?

If so can you send me your company details, so that I can get you set up on our system, address, contact details, bank account details etc?

Many thanks

William

Subject: Re: FW: Query Regarding GB300 Oxygen Analysers

Hi William,

I have checked with our export manager and he suggests part number 0111261 - MaxO2+AE Oxygen Analyser. This has a cable and we believe it will meet your requirements. The coiled cable length is 3ft (0.9m) and extends to 10ft (3.0m).

The price is £409.40 each EXW. This is currently in stock. Please see attached leaflet and instruction manual.

Please let me know if you require any further assistance.

Kind regards

Kate Griffiths

Hi Kate

Many thanks for your reply, we need the sensor to be inserted into a metal chamber, can these be fitted with a flexible cable approx. 60-70cm long to enable the sensor to be inserted into the chamber?

Thanks

William

Subject: Re: Query Regarding GB300 Oxygen Analysers

Good afternoon William,

Thank you for your enquiry.

Unfortunately, the GB300 oxygen analysers have been discontinued. The alternatives are as follows:

Part number 0111275 oxygen analyser OxiQuant S - £165.50 each, EXW. Please see attached leaflet. These are currently in stock.

Part number 0111249 Handi Industrial Oxygen Analyser with integral sensor - £181.20 each EXW. This is a non stock item.

Please let me know if you require an official quotation.

Kind regards

Good afternoon

I'm contacting you from DAERA in Northern Ireland, we currently have some of your GB300 O2 analysers and would like to purchase some more of these items if possible. Can you supply me with the following details please:

- Are these items still available
- If so, how much are they (we would be interested in purchasing possibly 4 of these)
- How long from point of order to delivery
- If we decided to purchase these, would you be prepared to accept a purchase order with payment following delivery

Look forward to hearing from you.

Regards

William Speir
