Hello,

I've just placed an order for R-17VAN Oxygen Sensor (0110217). I live in Mauritius and a friend is coming out to visit next week, leaving the UK on 9/6/26. The order has been placed to send to her house in Hudswell, near Richmond.

I would be very grateful if you could despatch as soon as possible so she could bring it with her. Any problems, please drop me an email, or WhatsApp on 07793 814628. I hope you can help.

Thanks very much in advance!

Best wishes,

Sarah Turnbull
