# VIAMED

Testing Spring P/N 9901-26

Pass   Fail

Place Spring onto stem of 9901-09. with 9901-10 fully screwed down until it touches the base of 9901-09.

The top of the stem should be almost touching the top of the spring..

If a gap can be seen between the top of the stem and the top of the spring the spring Fails.

Springs are not batch tested. Every Spring must be tested prior to being inserted in to 9901-40.
