Hi Sophie,

I actually managed to dig out one charger and adapter when looking a bit further.
Can we therefore have a quote for just two rather than three? :)

Hi Steve,

Many thanks for your reply.
Please can we have an invoice for 3x each.

I have attached a VAT exemption form for you.

Hi Conor

The Blueprint version of the Capnograph is called CapnoTrue and the Viamed version is known as the VM-2500 Series. The units are effectively the same, apart from the name plates. So, the power supply is suitable for both units:

Part number

4420598 Power supply for use with VM-2500 Series £45.75 each

4430607 UK Plug Adapter for use with VM-2500 £ 7.85 each

Prices exclude VAT.

UPS Courier Delivery - Standard is £12.00

Should you have any further queries, please do not hesitate to contact us.

Kind regards

Steve

Hi Steve,

Thanks for your email.

I am looking for the entire charger / wall plug for the Capnotfue ASP. We don't mount them, just charge them and place back into bags.

I have attached a photo of the unit if helpful.

Dear Connor

Dana from Bluepoint Medical has forwarded your email to us. Can you please confirm which part you are looking for, is it the external power supply / charging unit?

If so, we would need to determine which version you have. Can you please supply the serial numbers and manufacture date of the capnographs. Ideally an image of the power input connector on the capnograph would be useful.

Over the years we have had several variants to meet with the ever changing standards.

Kind regards

Steve
