Dear kate,

Thank you for your email.

We believe it would be safer for us if the sensors are shipped with their boxes. Although we understand that shipping without the boxes may reduce the carriage cost, we would prefer to receive them boxed to provide additional protection during transportation.

Please proceed with the quotation based on boxed packaging.

Thank you, and we look forward to hearing from you.

Kind regards,

Distinti Saluti

Subject: Re: inquiry MVM164571

Good afternoon,

Thank you for your reply. Please accept my reply on behalf of Sophie.

I will make the necessary changes to your proforma invoice **MVM164571 for 100 x 0110122 - R-22A**

In order to work out the carriage charge to Monrupino, 34016, Italy, please could I ask if you require the sensors **boxed or unboxed**? When the sensors are sent to you **without** the boxes (but still of course safely packaged), the carriage charge **can be lower**.

I look forward to your reply.

Kind regards

Kate Griffiths
